

## MEXICAN FAIR SET TO BE A BIG SUCCESS

# ELA 2008

A fair whose first phase sold out in under a week, having to double the exhibition area, which was quickly taken up by new exhibitors, with a third phase being set up shortly afterwards, seems to comply with all the conditions for serious success. The Mexican legal gaming market offers extremely high profits for slots operators and manufacturers and is one in which Spanish and US companies can compete on an equal footing. Another factor which will bring in big numbers of visitors is the "5<sup>th</sup> American Congress of Gaming Regulators", which has moved from Panama to Monterrey. Likewise, the "1<sup>st</sup> Ibero-American Meeting of Gaming Operators" will gather important visitors from South and Central America, Portugal and Spain. More recently, the organisers have announced an informal meeting of representatives from gaming exhibitions worldwide to try to agree on setting up the International Gaming Exhibitions Association (IGEA).

Monterrey, Mexico

ELA 2008 will be held at Cintermex Convention Center
