

## ALL ABOUT ABBIATI

We at Abbiati have been making our professional articles for Casinos since 1976. We design, project and produce all our own articles directly at our factory. Our best references are the satisfaction of the Casinos supplied and the pleasure we take in attending to quality in all details of our products.

Our main lines include European and American professional roulette wheels and gaming tables with wool and microfibre layouts. We also produce American chips and European style plaques (rectangular, oval and square) & jetons, all manufactured using security systems to avoid counterfeiting. Our Roulette wheels, both in the

American and traditional European styles, spin not only in the four Italian Casinos, but also in the most prestigious Salons Privés, such as Monte Carlo Casino, Carnival / Costa Cruises ships, and more, from Moscow to Singapore, Macao and Sydney. Our tables are manufactured using CNC-machines and first-class materials, a wide range of wood (mahogany, rosewood, ebony, cherry, briar-root) and metals (bronze, brass, aluminium), to guarantee precision.

We are also always pleased to consider manufacturing new tables in measures and colours other than standard, to meet our clients' wishes and the suggestions submitted by Casino architects. These new tables, for example, have been produced with composite materials, such as Corian (Dupont) & top quality leather, with special attention to ergonomics for both dealer and players.

A simple list is sufficient to describe what Abbiati Company has become today, thanks to Giovanni's passion for his job, his wife

Abbiati headquarters

Giovanni Abbiati, president

Angela's continuous support, his son Giorgio's essential help and thanks also to all the staff at Abbiati, who work with interest and illusion.
