

FER-INTERAZAR 2005

The latest edition of the FER-Interazar Amusement Fair was held in Madrid, Spain, from 28-30 September last year. This year's edition, the 25th anniversary of the fair, was the most international to date and, for the first time, featured a large number of models of interest to Casino operators. However, FER continues to be dominated by the AWP and amusement slot sector. The large stands of Recreativos Franco, Cirsa and the Gauselmann-Sente Group were joined by those of Casino Gran Madrid, Egasa & Grupo Nervión and Suzo-Happ Controls, all of which received a great number of visitors.

Fermin Lucas, Managing Director of IFEMA, and Joaquín Franco, President of Recreativos Franco

Yeshua Martínez Sigala, Alfastreet Sales Ibero-America and M^o. José Gallardo, Director of Research and Development, Recreativos Franco

José Miguel Esteban, RF Marketing Director; Javier Herrero, General Manager, Casino Castilla y León, Spain; and Alicia de Benito, RF Marketing Department

Ángel Orenes, President of the Orenes Group

John Borrell, Technical Department TCS Spain and David Charnock, General Manager TCS Europe

Download 6 years of wheel results

Groundbreaking!

Saturn™ Data Logger

With embedded memory built into the base of the wheel, Saturn™ Data Logger allows the data capture of winning number results and ball drop behaviour for every single spin - 24 hours a day, for over 6 years.

Optional on all Saturn™ Roulette Wheels, Data Logger software analyses the performance and integrity of the wheel, and highlights non random results and drop zone bias caused by inaccurate balancing, table movement or fraudulent wheel tampering.

Accurately records and stores information on:

Winning numbers, start of game, no more bets, direction and speed of wheel, ball drop zone and power on/off.

TCSJOHNHUXLEY.COM

The Balkan and Central European Countries and Russia were also represented, concentrating mainly on multi-player electronic roulettes, such as Alfastreet, Gold Club, Evona and Carat.

Argentinean company Gaming Signs, sharing a stand with Spanish company MGA, displayed progressive toppers, displays and electronic signage for Casinos and other amusement venues, all of which have been justifiably popular in Spain for some time now.

Cirsa Group executives: Eduardo Rodríguez, National Commercial Manager; Carlos Franquesa, Director of the Industrial Division; Manuel Lao, President; Ramón Pericas, Technical Director with Pedro Galindo, Editor of EUROPEAN CASINOS-The Elite

Gaming Signs executives: Ricardo Prepelitchi, European Sales Department, and Jorge Leiman, President

Rufino Serrano, President of Hispania Casino Equipment, during his visit at the Casino Gran Madrid stand

Suzo executives: Juan Gomez, Operations Manager South America, Pedro L. García, General Manager of Sadelectronic, distributors of Suzo products for the Spanish market; and Hans Breevoort, Group Finance Director

Performance during the Gala Dinner

The best of the events held in conjunction with the fair was, without a doubt, the Gala Dinner organised at the former Recreativos Franco centre in Madrid.

With the dinner, RF was celebrated its 40th anniversary, the One Millionth slot to leave its factory, and the transfer of its headquarters to the outskirts of Madrid.

Attendants included Spanish gaming regulators, diplomats, Casino, Bingo and Amusement Centre owners, manufacturers and representatives from gaming sector associations and the specialised press.

You know us

You have seen our products many, many times in hotels, convention centres, restaurants, malls, airports, amusement centres, bingo halls and Casinos around the world.

For over 30 years, we have been a leading name in the production of seats and furniture for intensive use.

Some years ago, we began to offer the Casino and amusement market our business commitment: experience and quality at a very competitive price.

We are FORMANOVA. You know us. You can trust us.
