

## PANAMA FAIR SET TO BEAT ALL ATTENDANCE RECORDS

The second edition of "SAGSE-Centroamérica", to be held in Panama on 25 and 26 May, will be attended by a large number of European companies and by many multinational slot manufacturers, some of whom were not present in 2005. WMS Gaming, Unidesa, Aristocrat, Recreativos Franco, Gaming Partners International, Hispania Casino Equipment, TCSJohnHuxley, Copag, Fournier, DEK International... are just some of the world-famous gaming companies who will be showcasing their newest products. The list will also include many well-known companies from Eastern Europe, such as Gamey and Zero Labs, some of the biggest names from the Argentinean industry, such as BS Group, Electro Chance o Uniseis, and several Asian manufacturers.

Much of international commerce passes through the Panama Canal

Exotic paradises are waiting to be discovered

The "3rd American Congress of Gaming Regulators" will be held in conjunction with the fair. Panama is the major commercial area in Latin America and one of the most important business points in the world. If we add to this its many unspoilt paradises, we get the ideal cocktail that makes Panama such an unmissable destination. The country is currently in full expansion as regards opening large Casinos and Slot Arcades, catching the eye of all the major gaming material manufacturers. SAGSE-Centroamérica 2006 has become the most important fair in Central America, the Caribbean and the Andes, overtaking all other events of its type. The fair will once again have the support of the Government, through the Panama Gaming Control Board, coordinated by regulator Raúl Cortizo, and the sponsorship of the Panama Tourism Institute.
