

FER-INTERAZAR

2006

The 26th edition of the Madrid Gaming Fair had fewer participants from the Casino sector than in previous years. The event, held in the Spanish capital late last September, still focuses more on the entertainment and AWP slot sector than on specific Casino products. This year there was the additional disadvantage that the dates coincided almost identically with EELEX Moscow, which did have a high presence of sector companies and executives. According to the organisation, the fair had 155 exhibitors, representing 520 companies. Some of the most important exhibitors included Unidesa Gaming, Alfastreet, Recreativos Franco, Suzo and CashCode. Distinguished visitors included executives from TCSJohnHuxley and Casino Gran Madrid.

RF Presidents:
Jesús Franco
and Joaquín
Franco
